

in-stock

Mailbox Locks

for interior & exterior architectural mailboxes

FEATURES & BENEFITS:

- Nut or clip mounted
- 90° counter-clock-wise cam turn to open
- Key removable in locked position only
- Supplied with selection of five cams, two keys, mounting nut, mounting clip, lock washer and cam screw

BEST USED IN:

- Apartments
- Condominiums
- Schools
- Lobbies

Diecast cylinder with nickel plated face; brass pins; spring steel locking clip; replaces many manufacturers' original equipment product; these multi-cam assortments can eliminate stocking of individual locks; all cylinders rotate 90° counter clockwise to open.
