CCL Front Dial Sesamee® black • brass • chrome

The K2620 and K2621 Sesamee® padlocks with hardened steel shackles from CCL Security Products feature a front combination dial, making it easier for users to operate the lock or change combination as necessary. The K2620 has a 1-inch shackle and the K2621 has a 2 ¹⁹/₃₂-inch shackle. Like all Sesamee® padlocks, the two locks provide keyless security for construction job sites, marinas, lockers, tool cribs, supply areas and other commercial and institutional applications. The padlocks are attractively packaged for retail display on a new card with complete operating instructions to help aid in point-of-purchase sales.
